Recombinant Human NT-proBNP

Catalog number: P2010019
Lot number: 0119P0019
Expiration date: 08/25/2023
Others Name(s): pro Brain Natriuretic Peptide Protein, NT-proBNP Protein, ProBNP, NPPB Protein.
Molecular Weight: 35 kDa (migrates at 40-50 kDa due to heavy glycosylation)
Concentration: 0.5 mg/mL
Amount: 50 µg
Purity: >95%
Storage: -20°C. Avoid repeated freeze/thaw cycles.
Supplied as: Liquid solution
Buffer: 1X Phosphate Buffer Saline, pH 7.4.
Keywords: NT-proBNP, Natriuretic peptides B, Natriuretic Peptide B, Brain Type Natriuretic Peptide, Natriuretic Peptide Precursor B, Gamma-Brain Natriuretic Peptide, Natriuretic Protein, BNP, pro Brain Natriuretic Peptide Protein, NT-proBNP Protein, ProBNP, NPPB Protein.

Product Description: N-terminal portion of the brain natriuretic peptide prohormone proBNP. This recombinant protein has been validated in various immunoassays detecting NT-proBNP.
